Jordan University of Since and Technology
SE410 Mobile Application Development
Assignment#3

Due Date: Wednesday 27/4/2022   **T.A.:Aseel Asad**

Design and implement the following android app:

Your application should contain two activates MainActivity and CvActivity
Main Activity contain:

- Edit Texts for Name, Age, Phone Number and Email
- Spiner for certificate: bachelor's, Master, PhD
- Images Buttons for Gender: Male, Female
- Button Make CV: Send you to CV Activity.

In CV Activity all of your information should be viewed as the following:

In this activity the gender should be viewed as image view at the top of the activity, there are two buttons one for call user name of his/her phone number the other button for send email of his/ her email

finally, this activity contains image button (search) this button will open a specific webpage https://zety.com/blog/how-to-write-a-cv

Good Luck ^_^
